

Ref. 1331

# CAPS SAFE

## Micro encapsulated softener.

It's a concentrated fabric softener with encapsulated perfume in micro-pearl form. It impregnates fabrics with fresh and long-lasting fragrances, released gradually by friction. It also gives treated garments a soft and fluffy feel. Its cationic character provides high deodorising power and inhibits electrostatic charges to facilitate flatwork ironing. The product is designed to be applied with **PGS® Systems** dosing equipment. Eco-friendly **ECO SAFETY®** bag-in-box packaging for a safer application.

### CHARACTERISTICS

Liquid

White

Scented

Ultra-concentrated

### APPLICATIONS

### DOSING

Softener

**0,5-1,5 g**  
**1 kg**
